Title	ALUMNET
Brief Description	ALUMNET is a web-based platform that connects students with alumni for mentorship and career guidance. It enables students to find suitable mentors, seek referrals, explore career opportunities, and engage in real-time discussions, while alumni can share experiences, post opportunities, and support student development through a collaborative professional community.

Serial	FR ID	Functional Requirement	User Story ID	As a (precise role)	I want (requirement)	So that (completion condition)	User Story	Acceptance Criteria	🚩	Priority	🕒	Status				
1	FR_1	The system shall allow users to register an account using their valid email and password.	US_1.1	User	to register for an account	I can securely access the mentorship platform.	As a User, I want to register for an account so that I can securely access the mentorship platform.	1. Register using a valid email address and password. 2. Required fields are validated before account creation. 3. Prevents duplicate email registrations. 4. User account is successfully created and stored in the database.	High		Done					
1	FR_2	The system shall allow registered students and alumni to create, view, and update their profiles.	US_2.1	Student	to create a profile specifying my department, technical skills, research experience, and career goals	the system can recommend mentor	As a Student, I want to create a profile specifying my department, technical skills, research experience, and career goals so that the system can recommend mentors.	1. Form allows inputting department, skills, research, and goals. 2. Profile saves successfully to the database. 3. Profile fields are editable post-creation.	High		Done					
2	FR_2	The system shall allow registered students and alumni to create, view, and update their profiles.	US_2.2	Alumni	to create a profile detailing my current company, job position, years of experience, technical skills, and availability	students can find me based on relevant criteria.	As an Alumnus, I want to create a profile detailing my current company, job position, years of experience, technical skills, and availability so that students can find me based on relevant criteria.	1. Form allows entering company, position, years of experience, technical skills, and availability 2. Alumni can add preferred communication platforms such as WhatsApp, Messenger, or Email. 3. Profile becomes visible to students after saving. 4. Profile information can be edited after profile creation.	High		Done					
3	FR_3	The system shall enable students to search, filter, and discover alumni mentors based on predefined criteria.	US_3.1	Student	to search alumni using filters such as company, department, job position, and technical skills	I can find mentors matching my interests.	As a Student, I want to search alumni using filters such as company, department, job position, and technical skills so that I can find mentors matching my interests.	1. Search page provides filters for Company, Department, Job Position, and Technical Skills. 2. Search results update after performing a search. 3. A "No alumni found matching your criteria" message is displayed when no results are found.	High		To Do					
4	FR_3	The system shall enable students to search, filter, and discover alumni mentors based on predefined criteria.	US_3.2	Student	to automatically recommend mentors based on my profile, skills, research interests, and career goals	I can quickly connect with suitable mentors.	As a Student, I want the platform to automatically recommend mentors based on my profile, skills, research interests, and career goals so that I can quickly connect with suitable mentors.	1. The system matches student profiles with relevant alumni profiles. 2. A "Recommended Mentors" section is displayed on the student dashboard. 3. Students can view mentor profiles or send mentorship requests directly from the recommendation	High		To Do					
5	FR_3	The system shall enable students to search, filter, and discover alumni mentors based on predefined criteria.	US_3.3	Student	to view detailed mentor profiles including availability, research experience, and professional background	I can make an informed decision before sending a mentorship request.	As a Student, I want to view detailed mentor profiles including availability, research experience, and professional background before requesting mentorship.	1. Alumni profiles display availability status. 2. Profiles include research experience. 3. Profiles display current company, years of experience, and technical skills.	High		To Do					
6	FR_4	The system shall allow students to submit mentorship requests and allow alumni to accept or reject those requests.	US_4.1	Student	to submit structured mentorship requests containing my academic background, interests, and expectations	mentors understand my needs before accepting.	As a Student, I want to submit structured mentorship requests containing my academic background, interests, and expectations so that mentors understand my needs before accepting.	1. Request form includes academic background. 2. Request form includes field of interest. 3. Request form includes mentorship expectations and goals. 4. Students can submit mentorship requests successfully.	High		To Do					
7	FR_4	The system shall allow students to submit mentorship requests and allow alumni to accept or reject those requests.	US_4.2	Alumni	to receive detailed mentorship requests	I can decide whether to accept or decline them.	As an Alumni, I want to receive detailed mentorship requests so that I can decide whether to accept or decline them.	1. Alumni receive notifications when new mentorship requests arrive. 2. Student details are displayed within the request. 3. Alumni can accept or decline mentorship requests. 4. Request status updates accordingly.	High		To Do					
8	FR_4	The system shall allow students to submit mentorship requests and allow alumni to accept or reject those requests.	US_4.3	Alumni	to manage all mentorship requests from a centralized dashboard	I can efficiently organize my mentees.	As a Alumni, I want to manage all mentorship requests from a centralized dashboard, so that I can efficiently organize my mentees.	1. Dashboard displays pending, active, and completed mentorship requests. 2. Requests can be filtered by status. 3. Basic student profile information is visible from the dashboard.	High		To Do					
9	FR_5	The system shall allow mentors to create mentorship tasks and enable students to track the progress and completion status of assigned tasks.	US_5.1	Alumni	to assign learning tasks and mentorship goals to students	I can provide structured guidance.	As a Alumni, I want to assign learning tasks and mentorship goals to students , so that I can provide structured guidance.	1. Alumni can create, edit, and assign tasks. 2. Each task contains a title, description, and deadline. 3. Tasks are assigned to individual mentees.	Medium		To Do					
10	FR_5	The system shall allow mentors to create mentorship tasks and enable students to track the progress and completion status of assigned tasks.	US_5.2	Student	to manage my mentorship tasks	I can stay organized throughout my learning journey	As a Student, I want to manage my mentorship tasks, so that I can stay organized throughout my learning journey	1. Students can mark assigned tasks as completed. 2. Task information is updated successfully.	Medium		To Do					

Serial	FR ID	Functional Requirement	User Story ID	As a (precise role)	I want (requirement)	So that (completion condition)	User Story	Acceptance Criteria	🕒	Priority	🔄	Status				
11	FR_5	The system shall allow mentors to create mentorship tasks and enable students to track the progress and completion status of assigned tasks.	US_5.3	Student	to monitor my mentorship progress	can evaluate my learning achievements.	As a Student, I want to monitor my mentorship progress, so that I can evaluate my learning achievements.	1. Completed tasks are visually distinguished from pending tasks. 2. Progress percentage is displayed based on completed tasks. 3. Progress updates automatically whenever task status changes.	🕒	Medium		To Do				
12	FR_6	The system shall provide a secure messaging facility that enables communication between mentors and students.	US_6.1	Student	to send direct messages to mentors	I can ask questions and seek career advice.	As a Student, I want to send direct messages to mentors, so that I can ask questions and seek career advice.	1. A Message button is available on each mentor profile. 2. The chat interface supports real-time messaging. 3. Messages display timestamps.	🕒	High		To Do				
13	FR_6	The system shall provide a messaging facility that enables communication between mentors and students.	US_6.2	Alumni	to access previous conversations with mentees	I can continue discussions without repeating information.	As an Alumnus, I want to access previous conversations with mentees so that I can continue discussions without repeating information.	1. Conversation history is stored. 2. Previous conversations can be searched using keywords. 3. Chat history remains accessible for each mentee.	🕒	High		To Do				
14	FR_6	The system shall provide a messaging facility that enables communication between mentors and students.	US_6.3	Alumni	to maintain private notes about mentees	I can remember their progress and personalize future guidance.	As an Alumnus, I want to maintain resources for mentees so that I can remember their progress and personalize future guidance.	1. Alumni can manage resources uploaded by them	🕒	High		To Do				
15	FR_7	The system shall allow alumni to publish career opportunities and enable students to browse and access those opportunities.	US_7.1	Alumni	to post job and internship opportunities	I can help students discover career opportunities.	As an Alumnus, I want to post job and internship opportunities so that I can help students discover career opportunities.	1. Can create job and internship postings. 2. Job posting form includes title, company, description, requirements, and application link. 3. Required fields are validated before submission.	🕒	Medium		To Do				
16	FR_7	The system shall allow alumni to publish career opportunities and enable students to browse and access those opportunities.	US_7.2	Student	to browse and search job and internship opportunities	I can find relevant openings.	As a Student, I want to browse and search job and internship opportunities so that I can find relevant openings.	1. Job Board displays all active opportunities. 2. Can search by job title or company. 3. Can view complete job details.	🕒	Medium		To Do				
17	FR_8	The system shall generate notifications for users regarding mentorship requests, task updates, messages, and career opportunities.	US_8.1	Student	to receive notifications for mentorship requests, messages, mentor recommendations, and task deadlines	I remain informed about important activities.	As a Student, I want to receive notifications for mentorship requests, messages, mentor recommendations, and task deadlines so that I remain informed about important activities.	1. Notifications are displayed when new messages are received. 2. Notifications are displayed when mentorship requests are accepted or declined. 3. Reminder notifications are sent before upcoming task deadlines.	🕒	Medium		To Do
