PROBLEM STATEMENT

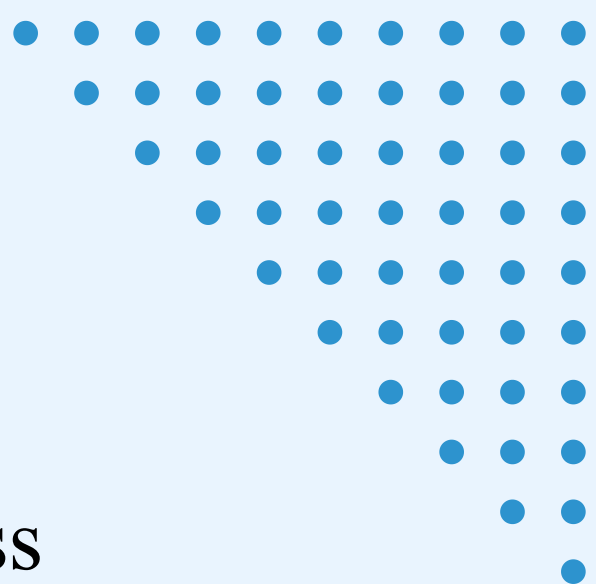

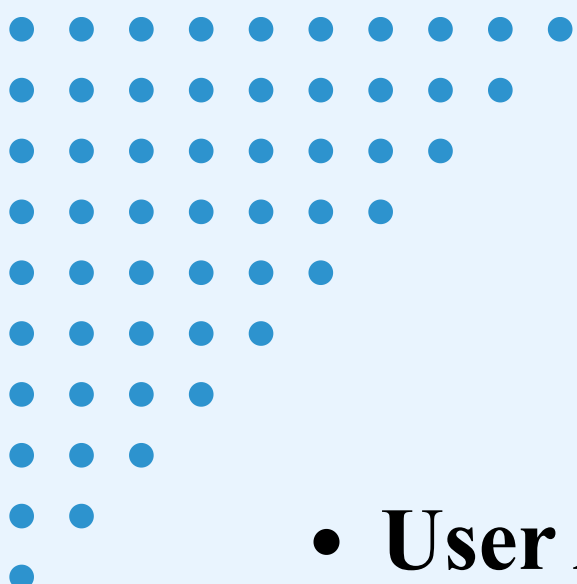

- Lack of accessible mentorship
- Difficulty finding relevant opportunities
- Lack of structured Student-Alumni interaction
- Insufficient career guidance and community support

PROJECT OVERVIEW

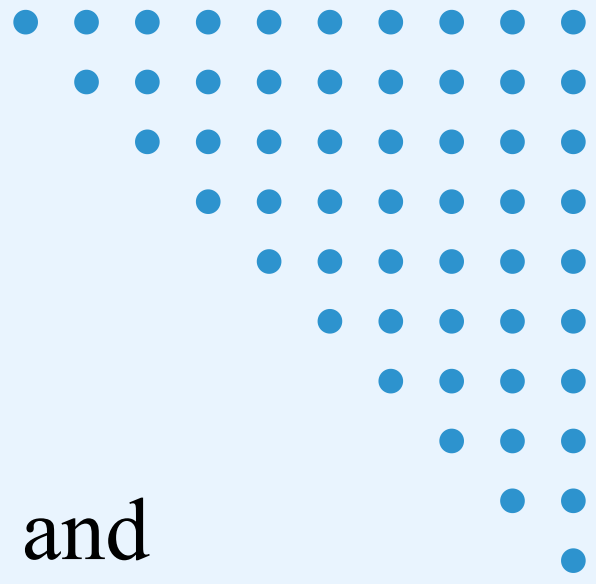

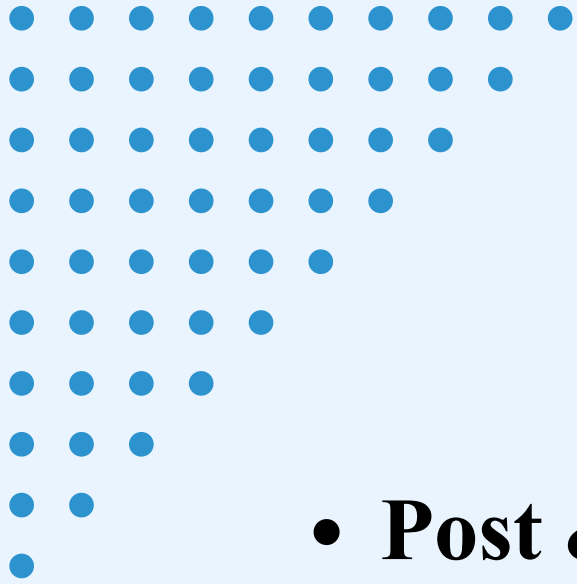

- Web-based platform connecting students with alumni for mentorship and career guidance.
- Provide an organized way for students to discover and connect with alumni who match their interests, career goals, and areas of expertise.
- Allow students to reach out for guidance and job referrals, while alumni can offer support, share opportunities, and post career advice.
- Foster a thriving community where members can have discussions, exchange knowledge, and stay informed about events and openings.

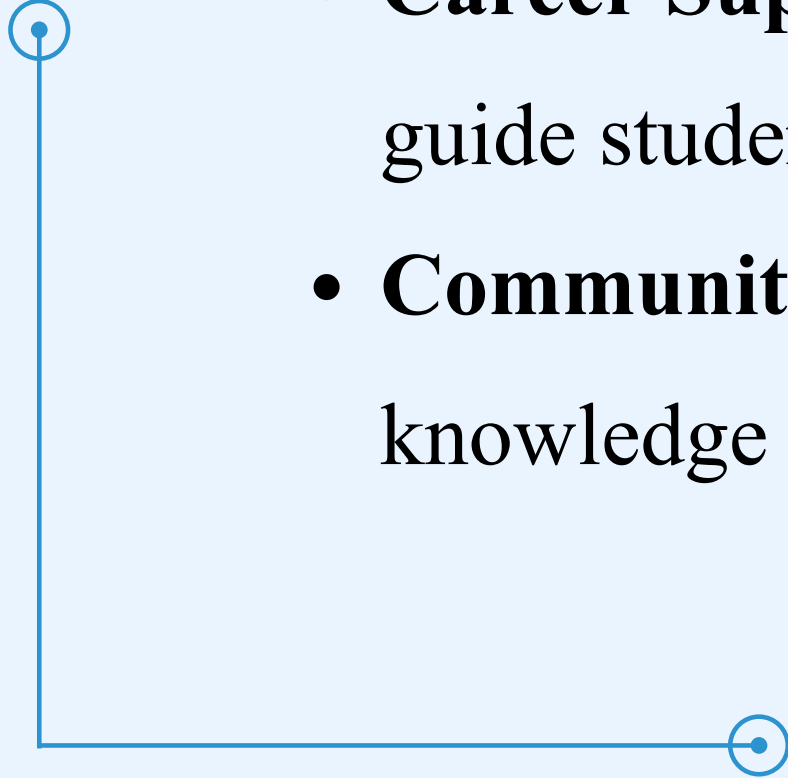

KEY FEATURES

- **User Authentication & Authorization:** Secure login with role-based access (student/alumni) and protected routes.
 - **User Profile System:** Student and alumni profiles with skills, background, and career goals.
 - **Alumni Search & Filtering:** Search alumni using filters like company, role, and skills.
 - **Mentor Matching (Attribute-Based):** Match mentors using database-driven filtering based on user attributes.
 - **Mentorship & Referral System:** Send, accept, and manage mentorship or referral requests.
- 
- 

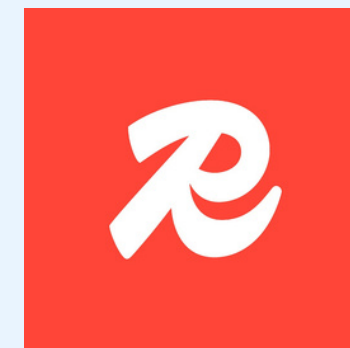

KEY FEATURES

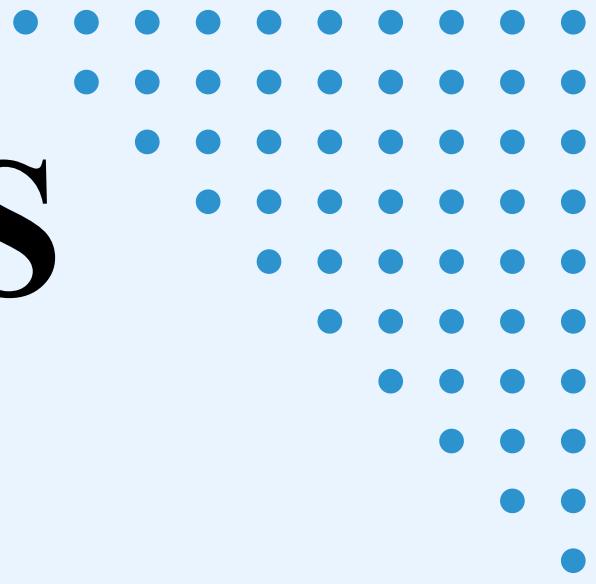

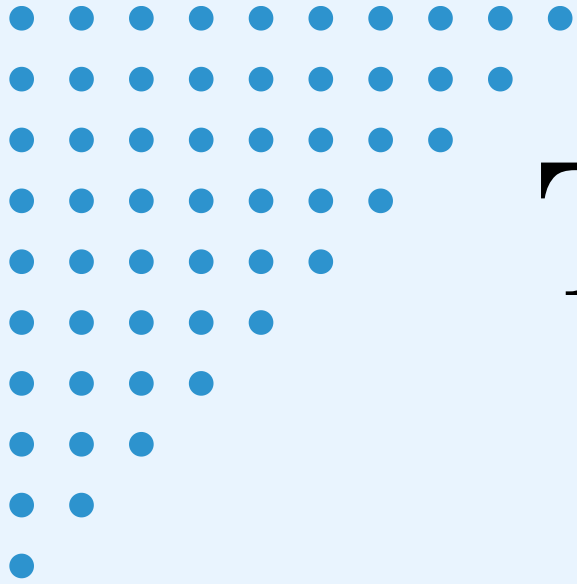

- **Post & Feed System:** Centralized feed for career advice, job opportunities, and experiences with likes and comments.
 - **Real-Time Chat System:** One-to-one student–alumni messaging for mentorship with real-time updates and chat history.
 - **Career Support:** Predefined career roadmaps and internship/job posting system to guide students toward their goals.
 - **Community & Events:** Discussion forum and event management system for knowledge sharing, webinars, and networking sessions.
